WHITE GRAIN FOR BIG PRODUCTION

- **HIGH YIELD PERFORMANCE**

On white grain market

- **GRAIN QUALITY**

White Heavy grain

- **STRONG PLANT**

For easy harvest

Características

Altura de planta **Alta**

Tipo de grão **Dentado**

Nº filar **16**

Nº grãos/fila **38 - 40**

PMG **320 g**

Floração **1005°C**

Grão (32%H₂O) **1990°C**

Maturação silagem 32%MS **1700°C**

Soma da temperatura (base 6°C)

Tolerância a doenças

Helminthosporium

Recomendações de cultura

DALARY the PRODUCTIVE WHITE GRAIN hybrid. The potential of production, and the early flowering allows to grow this hybrid in all areas from FAO400 to FAO600 territories. Its perfect quality of plant and grain offer large possibilities to ensure a production with high quality.

	Condições ótimas	Condições limitadas
Adaptação	3 sobre 4	4 sobre 4
Densidade - utilização grãos (PI/ha)	80000 Plants/ha	75000 Plants/ha

The results and recommendations given in this document are the values based on MAS Seeds R&D network and are intended for general guidance. We cannot assume any liability for the future achievement of these values, as the individual results and the performance may vary in different local growing, soil and weather conditions.
